

GHN-Online Partners with Emerging Medical Technologies to Offer Web-based, HIPAA Compliant UB92 Solutions to the Hospital Community

3/1/05 DALLAS, TX -- Today, GHN-Online, a national leader in online and real-time clearinghouse and revenue cycle management solutions, and (EMT) Emerging Medical Technologies, a national, full service medical practice vendor, announced the signing of an agreement whereby EMT will partner with GHN to provide web-based claims transaction services to the hospital community. With this combined solution, EMT will now offer a nation-wide, exclusive, electronic claims solution for their hospital clients who are using the AltaPoint Practice Management System to send UB92 claim forms.

"EMT is very excited about our partnership with GHN-Online. Although we are known for our HCFA based billing solutions, we believe that with our new UB92 capabilities, in conjunction with EDI services provided by GHN, that we will be able to provide one of the most well-rounded and cost effective billing solutions on the market today." said Ken Doke, Owner, EMT, LLC. Mr. Doke continued, "After careful evaluation of several other intermediaries, we elected to partner with GHN for UB92 claims processing because we feel that GHN is capable of providing full-service UB92 claim processing; including image to ANSI conversion, which is very important for our business model."

"GHN is excited at the opportunity to work with the EMT team as a dedicated partner in providing innovative and distinctive claims processing solutions that substantially improve the productivity and efficiency of claims processing with measurable results for both the payer and provider communities", stated Azadeh Farahmand, GHN-Online's CEO. "With our comprehensive, 360 degree revenue and claims transaction solutions, we offer the simplest and fastest claims to cash solution, anywhere."

About GHN-Online

GHN-Online ("GHN") is the simplest and fastest claims to cash solution, anywhere. GHN is an enterprise class revenue cycle management company providing complete and accurate electronic claims transaction solutions to healthcare payers and providers in real-time via the Internet (www.ghnonline.com). GHN's solution ensures the timely reimbursement of healthcare claims by providing an intuitive transaction management environment, which includes comprehensive data scrubbing, editing, status tracking and reporting features exclusive to GHN that assist the client in completing the continuum of healthcare claims transactions from insurance eligibility and claims submission to remittance and payment. GHN's suite of services is provided via the Internet and can be integrated with any information system transmitting data in virtually any format. Every GHN client is a reference and the company maintains a one hundred percent customer retention.
