

Automate Patient and Payor Business Transactions

GHN-Online and SourceMedical are working together to provide ambulatory surgery centers (ASCs) with the ability to automatically post payments and adjustments received from primary and secondary payers in the HIPAA compliant 835 electronic transaction file format. With this solution, surgery centers will be able to automate the time-consuming and manual payment posting process while reducing errors, such as payments being applied in incorrect amounts. Facilities can expedite the transfer of outstanding balances to patients and secondary payers for more streamlined cash flow.

Best-In-Class Solution

The SourcePlus AutoPost solution performs multiple layers of matching and conflict checking to ensure payments are applied to the correct accounts, dates of service or procedures. A reconciliation process also assists in identifying any payments that must be posted manually. Overall, the solution provides a more efficient process for managing payment posting.

Significant Benefits

The SourcePlus AutoPost solution is currently integrated with SourceMedical's AdvantX Version 3.02 and Vision Version 2.7 suite of revenue cycle tools, generating advantages for your facility, such as:

- Automation of time-consuming, manual posting processes
- Reduction of billing errors
- Improved profitability
- Increased productivity
- Reduction in AR days
- Expedited transfer of outstanding balances

Other benefits exist as well that bring high returns to your bottom line. By eliminating manual posting, you are reallocating staff away from document handling tasks to full payment recovery. It's possible to reduce time spent working secondary and denied claims and decrease research time by more than 50 percent. Various industry estimates reveal that as much as 30 percent of every healthcare dollar goes to eliminating paperwork and administrative costs.* Automating payment posting will drive immediate results for your facility's bottom line.

What our clients are saying...

"With the SourcePlus AutoPost payment solution, we have saved hours per day and are now focused on pursuing full payment recovery thanks to GHN-Online."

About GHN-Online, Inc.

GHN-Online® is a leading provider of real-time claims management and end-to-end transaction processing solutions. Enterprise-class and HIPAA-compliant, GHN offers the simplest and fastest claims-to-cash solution, anywhere™. With an open architecture that efficiently integrates all stakeholders in the healthcare reimbursement model, GHN solutions drive a 100 percent claims acceptance rate. GHN's intuitive capabilities are moving the industry toward instantaneous, complete and accurate electronic claims transaction processing for thousands of healthcare payers and providers nationwide.
