

Billing Management Service Overview

In today's uncertain and competitive marketplace, the pressure is on for hospitals, ambulatory surgery centers, physician practices, and labs to improve collections and operate more efficiently. Is your facility under performing? Maybe it is time to perform an assessment of your revenue cycle operations using an improved financial indicators checklist as well as a rigorous set of metrics to help drive continuous improvement. GHN-Online offers a comprehensive billing management service to help healthcare organizations manage their payer reimbursements and patient balance collections.

GHN-Online can help you capture sustainable improvement in cash flow by:

- Increasing visibility to every touch point in the revenue cycle
- Decreasing denied claims by substantially improving error rates
- Reducing AR days dramatically
- Turning the cash flow needle in the right direction

GHN-Online process improvements include the following:

- Deploying best business practices and benchmarks for long lasting revenue cycle management performance
- Implementing technology optimization strategies to reduce denials
- Providing feedback for day-to-day process, data and claims management improvements
- Automating claims follow up and payment posting processes to improve throughput and reduce costs
